

RENT A BEAST

Bug Club, Year 1 and 2

Time: Mondays, 3:15-4pm

Price: £55 for a 10 week course starting April 24th and finishing July 10th

Dear Parent/Carer,

Bug Club will be running again at Chestnut Lane in the Summer Term, after school on Mondays from 3:15-4pm (N.B. Collection is at 4pm, the 3:15pm start allows transition time for staff to bring children from their classrooms)

It's a 10 week course looking at a variety of different minibeasts which the children will see up close, learn about and handle if possible. I bring in a wide range of tropical creatures and also their smaller British cousins so that the children can learn to identify and appreciate the wildlife around them.

My session planning incorporates the science key stage learning objectives and there is a maximum of 15 places to allow enough time and opportunity for everyone to experience the creatures. I also need a minimum number to make the club viable.

Please note that although there is always some variation from term to term (some different creatures/ creatures at different stages of development, according to my stock and the season!) the content will be broadly the same as in previous clubs.

If you would like your child to participate in Bug Club, please email me at juliet@rentabeast.org I will then contact you with details of how to make payment which will then confirm your child's place. Please note places are limited.

If you would like any further information, do please call me on 07808 403602.
