Welcome to **Tapestry** - the original and leading Childhood Education Platform for nurseries, childminders and schools to nurture partnerships with families and support children's learning and development.

This guide aims to familiarise you with the desktop version of Tapestry, so you can start sharing in your child's learning experiences.

You must have an active Tapestry profile before you can log in and use Tapestry. If you don't have a profile, please speak to your setting/school.

Tapestry Tip: To manage your notifications, go to your profile drop-down menu and select 'Account Preferences'.

Use the search bar to quickly find a specific thread whenever you need.

Observations

TAPESTRY

Observations

The next best thing to being there: observations are **words, photos or video clips** about what your child has been up to during their day, so you can chat with them about it later. And you can **add your own observations** about your child's experiences at home too.
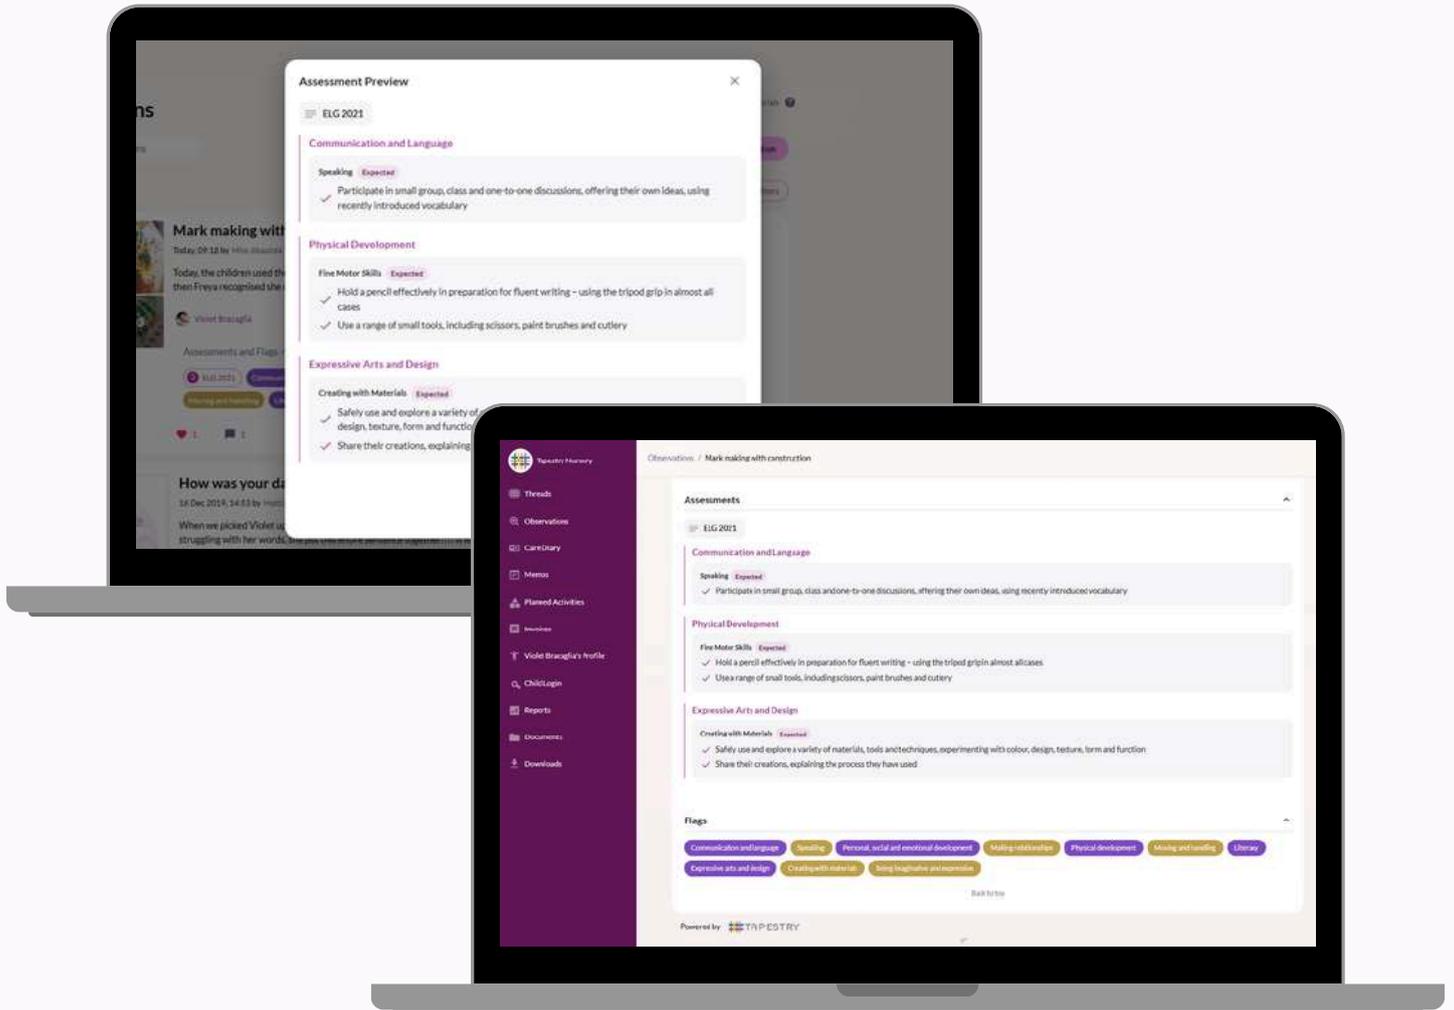

Tapestry Tip: Like and comment to engage with your child's educators.

Observations

A unique learning journey
Assessments

💡 **Assessments**
See their learning and development in all areas.

Tapestry Tip: Don't focus on this too much! What matters is that your child is being supported by both you and the setting.

Notes

Even the most basic of chores contain learning opportunities for your developing child! Doing the washing involves so many little tasks: collecting, piling, hanging, sorting, matching, folding (Physical Development: Moving and Handling and Maths: Number).

# Don't miss a thing
Care Diary

Care Diary
A parent's best friend.

Keep updated with a **timeline** of your child's **everyday care**. See how long they napped for and what they ate, so you can prepare for their return to you.

Don't miss a thing
Accidents

TAPESTRY

Accident forms

Detailed accident reports and clear **body maps** to keep your mind at ease.

Once the setting/school has discussed your child's accident with you, the accident report will appear in the **care diary timeline**, so you can get back to it if you need to.

Tapestry Tip: Some settings choose not to use the Care Diary and only use the Accident Form feature. If this is the case, you'll find the Accidents area in the same place as the Care Diary area - just under a different name!
